

SMALL SIZE – IIHF

Practice Arena with one ice Surface

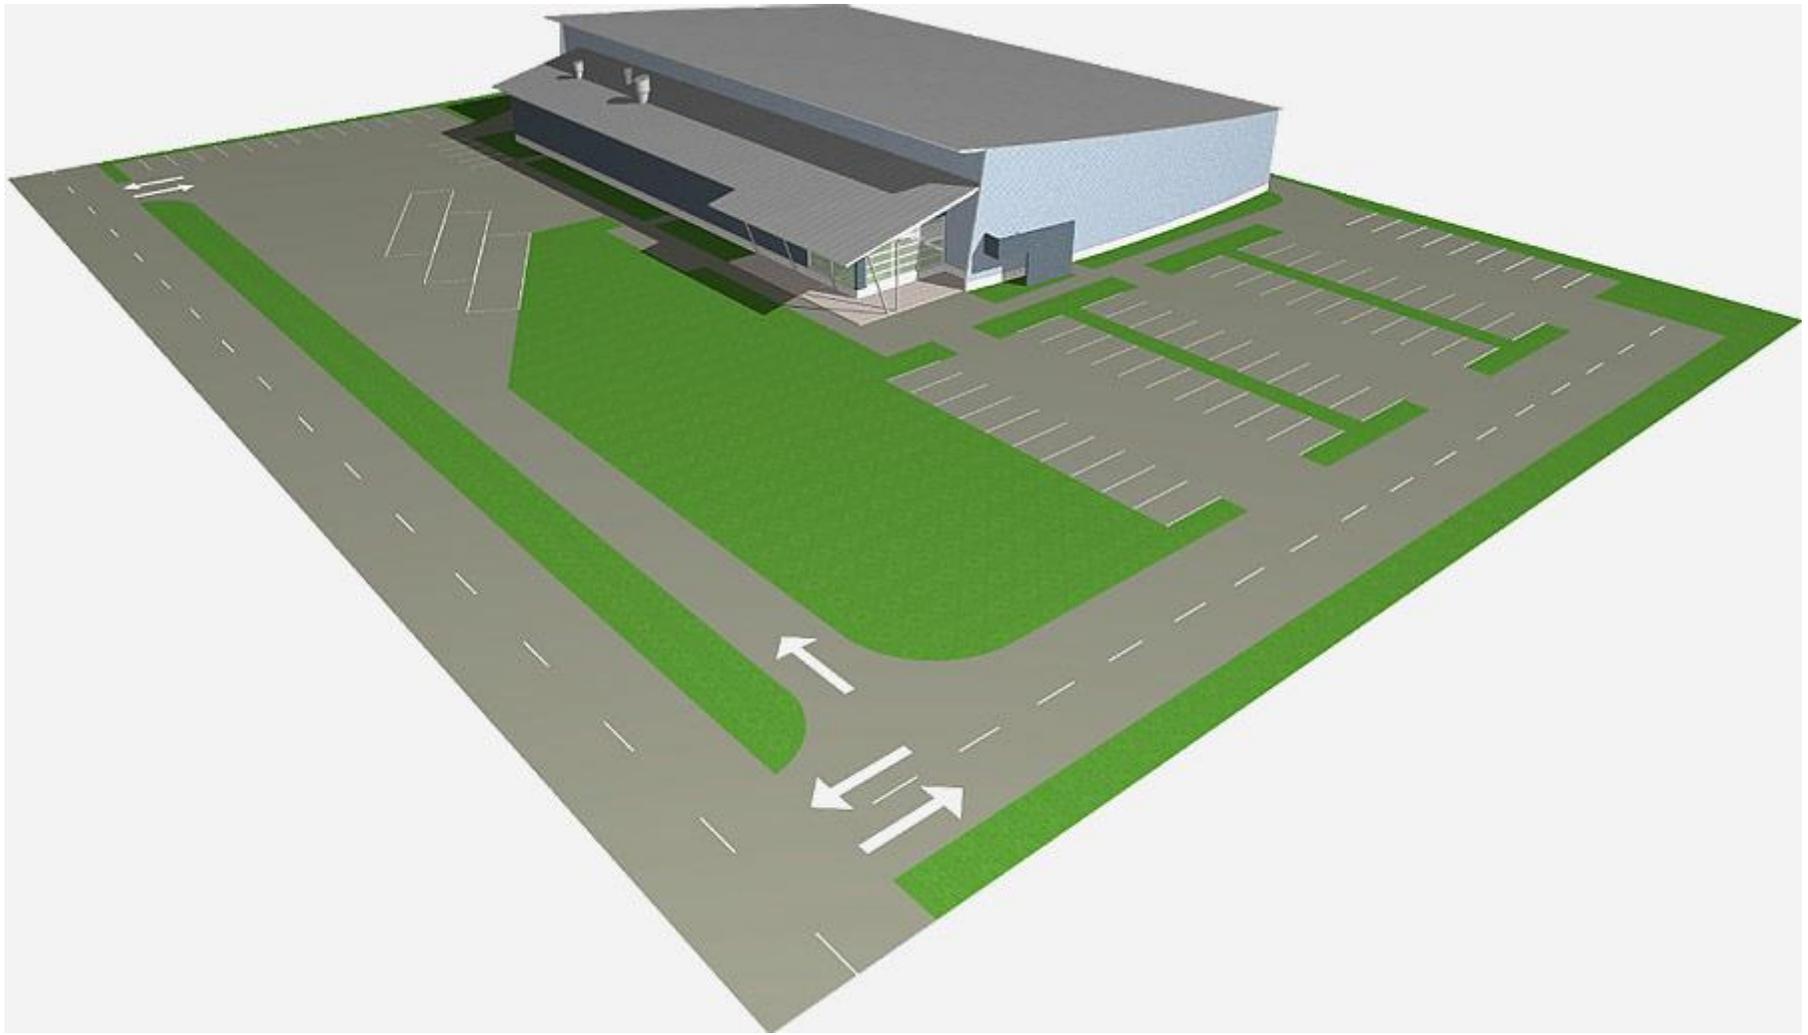

A relatively low-investment solution to bring an ice rink to a smaller community, or to add to the ice time needs in a larger community, with existing ice rinks already in place. It should be centrally located within easy reach of all the population it serves. This facility is still primarily designed for practice, although of course games and scrimmages are possible.

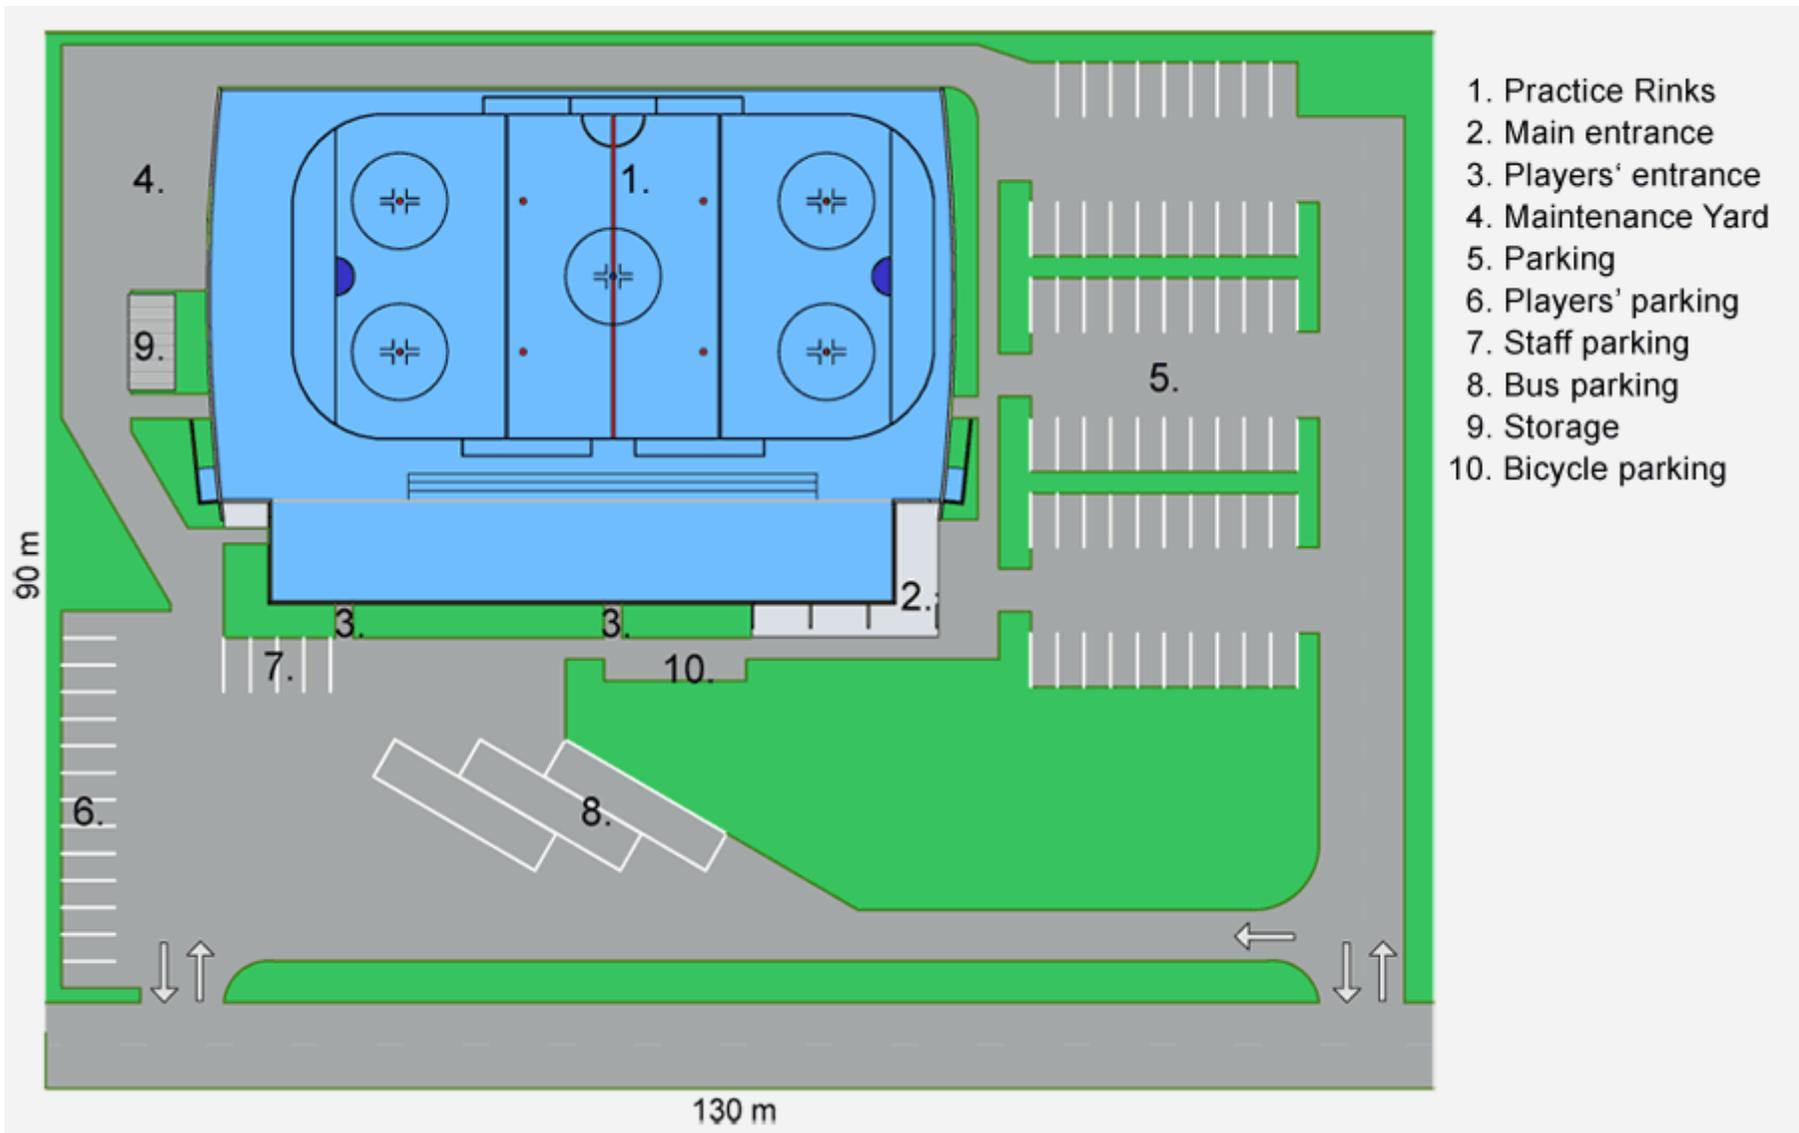

Seating Capacity: less than 200

Purpose: practice and some scrimmages

Features: One ice surface, ideally full-size (30 m X 60 m)

Land needed: ca 2.9 acres (ca 12 mål)

1. Practice Rinks
2. Main entrance
3. Players' entrance
4. Maintenance Yard
5. Parking
6. Players' parking
7. Staff parking
8. Bus parking
9. Storage
10. Bicycle parking
